Internship Experience

Java Full Stack Developer Intern   Feb 2025 – Sep 2025
Greateway Software Pvt. Ltd, Pune.
  * Worked on developing backend components using Core Java, JDBC, Servlets, and MySQL for database-driven applications..
  * Contributed to frontend development using HTML, CSS, JavaScript, and React.js to build responsive user interfaces.
  * Assisted in designing and consuming REST APIs, and tested endpoints using Postman.
  * Collaborated with team members to implement assigned features, debug issues, and meet project timelines in a fast-paced environment.

Full Stack Developer Intern   Oct 2025 – Present
AIQoD, Pune
  · Developed and maintained full-stack applications using MongoDB, Express.js and Node.js.
  · Built a Dynamic Reconciliation System to automate data matching, validation, and discrepancy resolution across multiple datasets.
  · Contributed to the development of an Online Interview Browser using Kiosk Mode, ensuring a secure, restricted environment for interviews and assessments.
  · Managed and enhanced the AIQoD corporate website using WordPress, improving UI/UX, layout structure, and overall visual appeal.

Projects

Dandeli Adventure and Resorts
Technologies: WordPress, HTML, CSS
  · Developed and deployed a responsive website for "Dandeli Adventure and Resorts" using WordPress, featuring custom pages for adventure packages, booking forms, and resort information.
  · Integrated SEO best practices, image galleries, and contact forms to enhance user experience and increase site visibility on search engines.
  · Managed website design, content structuring, and plugin configuration, delivering a user-friendly interface and streamlined navigation for potential tourists.

Dream Home Finance
Technologies: Java, Spring MVC, MySQL, HTML, CSS
  · Developed a full-stack personal finance web application enabling users to track income, expenses, savings, and plan finances for home ownership.
  · Implemented backend functionality using Java and Spring MVC to handle business logic and user workflows.
  · Designed and integrated a MySQL database to store user data and financial records securely.
  · Built a simulated CIBIL score evaluation feature to assess user eligibility for home loans based on financial inputs.
